In view of applicant's response filed 9/15/04 the following still applies.

The obviousness type double patenting rejection is withdrawn in view of the competent date of the US patent as a reference as applicants urge.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-9 remain rejected under 35 U.S.C. 102(b) as being anticipated by Cossement, Merck Index and Baltes for the reasons given previously. Extrinsic evidence is permitted to be considered in anticipations for explaining (or evidencing) what the meaning of the reference would have meant to those skilled in the art at the time the invention was made. Note for example, Ciba-Geigy v Alza 37 USPQ 2d 1337. Note that the supplemental references relied on herein in fact evidence what the skilled artisan knew about the various uses and forms of administration of cetirizine prior to the Cossement publication. One reading Cossement would include all forms of cetirizine as having the uses disclosed on p.1 since the reference is directed to better ways of preparing cetirizine and its 2 isomers. One looks to higher yielding processes for making useful (not useless) products which is how applicant's own specification synopsizes the Cossement (commonly owned with common inventors) reference.

Claims 1-9 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Cossement, Baltes and Merck for reasons given previously.

The comparative showing (taken from the specification) applicant relies on is between the 2 optical isomers and not the racemate which is the thrust of the teachings in the prior art. Note any such showing with the racemate v. the individual isomer must demonstrate superior and unexpected results over the racemic product. Note the case law on optical isomers cited in previous action. Note that Baltes describes the corresponding racemate as being devoid of secondary effects usually encountered with conventional antihistamines in col.1.

Claims 1-9 remain rejected under 35 U.S.C. 102(e) as being anticipated by Gray. Applicant does not traverse this rejection but appears to intend to antedate it as a reference. However the claims cover in part subject matter being claimed herein. Note MPEP 2306, especially section (C) and 35 U.S.C. 1.35(b).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed

rt Unit: 1624

within TWO MONTHS of the mailing date of this final action and the advisory
action is not mailed until after the end of the THREE-MONTH shortened statutory
period, then the shortened statutory period will expire on the date the advisory
action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be
calculated from the mailing date of the advisory action. In no event, however, will
the statutory period for reply expire later than SIX MONTHS from the mailing
date of this final action.
